Independent auditor's report

To the directors of SHENZHEN DOBOT CORP LTD

(Incorporated in the People's Republic of China with limited liability)

Opinion

We have audited the consolidated financial statements of SHENZHEN DOBOT CORP LTD (the "Company") and its subsidiaries (the "Group") set out on pages 4 to 124, which comprise the consolidated and company statements of financial position as at 31 December 2021, 2022, 2023 and 30 June 2024, and the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows for each of the years ended 31 December 2021, 2022, 2023 and the six months ended 30 June 2024 (the "Relevant Periods"), and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2021, 2022, 2023 and 30 June 2024 and of the Group's consolidated financial performance and its consolidated cash flows for each of the Relevant Periods in accordance with the basis of preparation set out in notes 2.1 to the consolidated financial statements.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matter

Without modifying our opinion, we draw attention to the fact that the financial information for the six months ended 30 June 2023 (the "Interim Comparative Information") is unaudited.

Responsibilities of the directors for the consolidated financial statements

The directors of the Company are responsible for the preparation of the consolidated financial statements, which also include the Interim Comparative Information, that give a true and fair view in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board (the "IASB"), and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements for the Relevant Periods as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements

Independent auditor's report (continued)
To the directors of SHENZHEN DOBOT CORP LTD

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report (continued)
To the directors of SHENZHEN DOBOT CORP LTD

Restriction on distribution and use

These consolidated financial statements are prepared for the purpose of preparation of financial information for inclusion in the prospectus of the Company in connection with the listing of the shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited and accordingly may not be suitable for another purpose.

Our report is intended solely for the information and use by the directors of the Company and should not be distributed to or used by parties other than the Company.

NOTES TO THE FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

The Company is a joint stock company with limited liability incorporated in Shenzhen, the People's Republic of China (the "PRC") on 30 July 2015. The registered office address of the Company is 1003, Building 2, Chongwen Park, Nanshan Zhiyuan, No. 3370 Liuxian Avenue, Taoyuan Street, Nanshan District, Shenzhen, the PRC.

During the Relevant Periods and in the period covered by the Interim Comparative Financial Information, the Group was principally engaged in the design, development, manufacture and commercialisation of collaborative robots.

As at the date of this report, the Company had direct and indirect interests in its subsidiaries, all of which are private limited liability companies (or, if incorporated outside Hong Kong, have substantially similar characteristics to a private company incorporated in Hong Kong), the particulars of which are set out below:

*The English names of these companies registered in the PRC represent the best effort made by the directors of the Company (the "Directors") to translate the Chinese names as these companies have not been registered with any official English names.

Notes:

- As at the date of this report, no audited financial statements have been prepared for these entities for the years ended 31 December 2021, 2022 and 2023 as these entities were not subject to any statutory audit requirements under the relevant rules and regulations in the jurisdictions of incorporation or newly incorporated.
- The statutory financial statements of this entity for the period from 16 August 2021 (date of Incorporation) to 31 December 2022 prepared in accordance with the Hong Kong Small and Medium-sized Entity Financial Reporting Standards ("SME-FRS") issued by the HKICPA, were audited by Richful CPA Limited, certified public accountants registered in Hong Kong. The statutory financial statements of this entity for the year ended 31 December 2023 prepared in accordance with SME-FRS, were audited by LEE CHI FAI&Co., certified public accountants registered in Hong Kong.
- The registered capital of Qingdao Yuejiang Robotics Co., Ltd. was increased from RMB10,000,000 to RMB71,965,300 on 28 November 2022. The equity interests in Qingdao Yuejiang Robotics Co., Ltd. were acquired by the Group in June 2023 with details set out in note 34 to the financial statements.
- The Group held 90% equity interests in Shenzhen Qimo Technology Co., Ltd. upon the incorporation of this entity. On 31 March 2021, the Group acquired 10% non-controlling interests in Shenzhen Qimo Technology Co., Ltd. at RMB1.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The financial statements are prepared for the purpose of preparation of financial information for inclusion in the prospectus of the Company in connection with the listing of the shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited. They have been prepared in accordance with IFRSs, which comprise all standards and interpretations approved by the IASB. All IFRSs effective for the accounting period commencing from 1 January 2024, together with the relevant transitional provisions, have been early adopted by the Group throughout the Relevant Periods and the period covered by the Interim Comparative Information.

The Group has previously prepared financial statements under Accounting Standards for Business Enterprises (“PRC GAAP”) issued by the Ministry of Finance of the People's Republic of China. These financial statements are the first financial statements prepared by the Group in accordance with IFRSs. Accordingly, IFRS 1 (Revised) “First-time adoption of International Financial Reporting Standards” has been applied in preparing these financial statements and the transition date is 1 January 2021. Details of the first-time adoption of IFRSs are disclosed in Note 2.4 below.

These financial statements have been prepared under the historical cost convention. They are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The financial statements include the financial information of the Group for the Relevant Periods and in the period covered by the Interim Comparative Financial Information. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial information of the subsidiaries is prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. ACCOUNTING POLICIES (continued)

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 ISSUED BUT NOT YET EFFECTIVE IFRSs

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective, in these financial statements.

Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture¹</i>
Amendments to IAS 21	<i>Lack of Exchangeability²</i>
Amendments to IFRS 9 and IFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments³</i>
Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7	<i>Nine narrow scope amendments including clarifications, simplifications, corrections or changes to improve consistency in IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7³</i>
IFRS 18	<i>Presentation and Disclosure in Financial Statements⁴</i>
IFRS 19	<i>Subsidiaries without Public Accountability: Disclosures⁴</i>

¹ No mandatory effective date yet determined but available for adoption

² Effective for annual periods beginning on or after 1 January 2025

³ Effective for reporting periods beginning on or after 1 January 2026

⁴ Effective for reporting periods beginning on or after 1 January 2027

The Group is in the process of making an assessment of the impact of these new and revised IFRSs upon initial application. So far, the Group considers that these new and revised IFRSs may result in changes in accounting policies and are unlikely to have a significant impact on the Group's results of operations and financial position.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES

Investment in an associate

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investment in an associate is stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist. The Group's share of the post-acquisition results and other comprehensive income of an associate is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of an associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's investment in the associate, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates is included as part of the Group's investment in an associate.

Fair value measurement

The Group measures its certain financial instruments at fair value at the end of each of the Relevant Periods. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each of the Relevant Periods.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and deferred tax assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each of the Relevant Periods as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;or
- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold improvements	Shorter of remaining lease terms and estimated useful lives
Buildings	3.17% to 4.75%
Furniture and fixtures	19% to 32%
Electronic equipment and others	9.5% to 32%
Motor vehicles	19% to 32%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at the end of each of the Relevant Periods.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress is stated at cost less any impairment losses, and is not depreciated. It is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each of the Relevant Periods.

Intangible assets are amortised on the straight-line basis over the following useful economic lives:

Software	3 to 5 years
----------	--------------

Research and development costs

All research costs are charged to the statement of profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Where applicable, the cost of a right-of-use asset also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Factory, office and laboratory	1 to 5 years
Leasehold land	30 to 50 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Leases (continued)

Group as a lessee (continued)

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office and employee dormitory (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment that is considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Investments and other financial assets (continued)

Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Derecognition of financial assets (continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Impairment of financial assets (continued)

General approach (continued)

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, interest-bearing bank and other borrowings, financial liabilities measured at amortised cost and financial liabilities measured at fair value through profit or loss.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (trade and other payables, loans and borrowings)

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Financial liabilities (continued)

Subsequent measurement (continued)

After initial recognition, trade and other payables and interest-bearing borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss and other comprehensive income.

Financial liabilities at fair value through profit or loss

Financial liabilities measured at fair value through profit or loss include financial liabilities held for trading.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss and other comprehensive income.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each of the Relevant Periods of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in profit or loss and other comprehensive income.

The Group provides for warranties in relation to the sale of products for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are initially recognised based on sales volume and past experience of the level of repairs and returns. The warranty-related cost is revised annually.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each of the Relevant Periods, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each of the Relevant Periods between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries and an associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries and an associate, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Income tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each of the Relevant Periods and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each of the Relevant Periods and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each of the Relevant Periods.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the Group receives grants of non-monetary assets, the grants are recorded at the fair value of the non-monetary assets and released to the statement of profit or loss over the expected useful lives of the relevant assets by equal annual instalments.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

(a) Sale of products

Revenue from the sale of products is recognised at the point in time when control of the asset is transferred to the customers, generally on delivery or acceptance of the products as agreed in the sales contracts.

For some contracts, the Group provides installation and commissioning services that are bundled together with the sale of products to the customers. The installation and commissioning services significantly modify or customise the goods, therefore, the products and the services are highly interrelated and instead combined as one single performance obligation which is satisfied at a point in time.

(b) Product related supporting services

Revenue from services is recognised at a point in time when the service is provided and accepted by the customer.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract assets

If the Group performs by transferring goods or services to a customer before being unconditionally entitled to the consideration under the contract terms, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets. They are reclassified to trade receivables when the right to the consideration becomes unconditional.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

Share-based payments

The Group operates share award schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date on which they are granted. The fair value of share awards is determined by an external valuer using the probability weighted expected return method and valuation models. Further details are included in note 32 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each of the Relevant Periods until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Share-based payments (continued)

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately.

Other employee benefits

Pension scheme

The employees of the Group's subsidiaries which operate in Chinese Mainland are required to participate in a central pension scheme operated by the local municipal government. The subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs involving the payment of termination benefits.

Borrowing costs

All borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Foreign currencies

The financial statements is presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of each of the Relevant Periods. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries are currencies other than the RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates of the year.

2.4 FIRST-TIME ADOPTION OF IFRSs

In preparing these consolidated financial statements, the Group's opening statement of financial position was prepared as at 1 January 2021, being the date of transition to IFRSs.

Reconciliation of equity

As at 1 January 2021 and 31 December 2023, there were no reclassifications or remeasurements to equity arising from the transition from PRC GAAP to IFRSs.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2.4 FIRST-TIME ADOPTION OF IFRSs (continued)

Reconciliation of total comprehensive income

During the year ended 31 December 2023, there were no reclassifications or remeasurements to total comprehensive income arising from the transition from PRC GAAP to IFRSs.

Reconciliation of cash flows

The transition of PRC GAAP to IFRSs did not have any material adjustments to the cash flows.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Research and development expenses

All research costs are charged to the statement of profit or loss as incurred. Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred. Determining the amounts of development costs to be capitalised requires the use of judgements and estimation.

Classification of financial assets

The classification of financial assets at initial recognition depends on the Group's business model for managing the financial assets. In determining the business model, the Group considers how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Group's key management personnel, the risks that affect the performance of the business model (and the financial assets held within) and, in particular, the way those risks are managed. In determining whether cash flows are going to be realised by collecting the financial assets' contractual cash flows, it is necessary for the Group to consider the reason, timing, frequency, and value of sales prior to the maturity date.

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each of the Relevant Periods, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision against obsolete and slow-moving inventories

The Group reviews the condition of its inventories at the end of each reporting period and makes provisions against obsolete and slow-moving inventory items which are identified as no longer suitable for sale or use based on sales forecasts. Such sales forecasts are prepared based on agreements or orders on hand and estimated sales in the foreseeable future based on historical experiences with its customers and current market conditions of the robots industry. Management estimates the net realisable value for those obsolete and slow-moving inventories based primarily on the latest invoice prices and current market conditions. The estimation is reassessed at the end of each reporting period. The provision against obsolete and slow-moving inventories requires the use of judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such difference will impact on the carrying value of inventories and the write-down of inventories recognized in the periods in which such estimates have been changed.

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Provision for expected credit losses on trade receivables (continued)

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 19 to the financial statements.

Recognition of income taxes and deferred tax assets

Determining income tax provision involves judgement on the future tax treatment of certain transactions and when certain matters relating to the income taxes have not been confirmed by the local tax bureau. Management evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatments of such transactions are reconsidered periodically to take into account all changes in tax legislation.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Leases – Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each of the Relevant Periods. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is not organised into business units based on their services and products and only has one reportable operating segment.

The information reported to the directors, who are the chief operating decision makers, for the purpose of resource allocation and assessment of performance does not contain discrete operating segment financial information and the directors reviewed the financial results of the Group as a whole. Therefore, no further information about the operating segment is presented.

NOTES TO THE FINANCIAL STATEMENTS (continued)

5. REVENUE, OTHER INCOME AND GAINS (continued)

The following table shows the amounts of revenue recognised in the Relevant Periods that were included in the contract liabilities at the beginning of each of the Relevant Periods and recognised from performance obligations satisfied in previous periods:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000
Revenue recognised that was included in contract liabilities at the beginning of the reporting period:					
Sale of products	<u>14,309</u>	<u>19,521</u>	<u>34,291</u>	<u>13,241</u>	<u>8,116</u>

(b) Performance obligations

Information about the Group's performance obligations is summarised below:

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

5. REVENUE, OTHER INCOME AND GAINS (continued)

Sales of products

The performance obligation is satisfied upon delivery and acceptance of products and payment is generally due within 2 months from delivery, where payment in advance is normally required.

Product related supporting services

The performance obligation is satisfied at the point in time when services are completed and payment is generally due upon completion of the services and customer acceptance.

As the original expected duration of the contracts from customers of the Group is within one year or less, the Group applies the practical expedient of not disclosing the transaction price allocated to the remaining performance obligation.

Other income and gains

An analysis of other income and gains is as follows:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000

	<u>27,267</u>	<u>45,464</u>	<u>43,831</u>	<u>23,120</u>	<u>21,075</u>

NOTES TO THE FINANCIAL STATEMENTS (continued)**5. REVENUE, OTHER INCOME AND GAINS (continued)**

* The Group has received certain government grants related to assets and income. Certain of the grants related to assets and income have future related costs expected to be incurred and require the Group to comply with conditions attached to the grants and the government to acknowledge the compliance of these conditions. The grants related to assets were recognised in profit or loss over the useful lives of the relevant assets. The grants related to income have been received to compensate for the Group's research and development costs and are recognised in the statement of profit or loss on a systematic basis over the periods that the costs, for which they are intended to compensate, are expensed.

Other government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

6. FINANCE COSTS

An analysis of finance costs from continuing operations is as follows:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000

* The amounts disclosed for cost of inventories sold included the write-down of inventories to net realisable value

** The depreciation of property, plant and equipment, amortisation of intangible assets, and right-of-use assets are included in "Cost of sales", "Selling and distribution expenses", "Administrative expenses", and "Research and development expenses" in profit or loss

*** The amounts are included in "other income and gains" and "other expense" in profit or loss

**** The amounts are included in "cost of sales" in profit or loss

***** According to IAS 38.54, any expenditure on research or the research phase of an internal project must be expensed as incurred. IAS 38.57 requires capitalization of expenditure incurred during the development phase of an internal project, only when all of the criteria (as set out in the accounting policies for research and development costs in Note 2.3) can be met. The Group determines that capitalisation of development costs starts when the prototype of the product is available and there are established demands for the product. There are only immaterial development costs incurred after that point until the commercialisation of the product, therefore, no research and development costs were capitalised during the Relevant Periods and six months ended 30 June 2023.

NOTES TO THE FINANCIAL STATEMENTS (continued)

8. DIRECTORS', SUPERVISORS' AND CHIEF EXECUTIVE'S REMUNERATION

Directors' and chief executive's remuneration as recorded during the Relevant Periods and the six months ended 30 June 2023, disclosed pursuant to the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange (the "Listing Rules"), section 383(1)(a), (b), (c) and (f) of the Hong Kong Companies Ordinance and Part 2 of the Companies (Disclosure of Information about Benefits of Directors) Regulation, is set out below:

(b) Directors and the chief executive (continued)

Notes:

- (i) Mr. Liu Peichao was appointed as a director and the chief executive officer of the Company and the chairman of the Board with effect from July 2015.
- (ii) Mr. Lang Xulin was appointed as a director of the Company with effect from September 2016. Mr. Wu Zhiwen was appointed as a director of the Company with effect from September 2016 to February 2021. Ms. Cai Wenjuan was appointed as a director of the Company with effect from September 2016 to December 2022. Ms. Zheng Chenyuan was appointed as a director of the Company with effect from July 2017 to October 2022. Mr. Xiang Guanglong and Mr. Li Xing were appointed as directors of the Company with effect from July 2017 to December 2022. Mr. Bai Yunfan was appointed as a director of the Company with effect from May 2018 to February 2021. Mr. Jing Liang was appointed as a director of the Company with effect from April 2020. Mr. Liu Yang was appointed as a director of the Company with effect from February 2021 to December 2022. Mr. Yang Guowei was appointed as a director of the Company with effect from February 2021 to October 2022. Mr. Liu Zhufu and Mr. Jiang Yu were appointed as a director of the Company with effect from October 2022 to December 2022. Mr. Wang Yong was appointed as a director with effect from December 2022.
- (iii) Mr. Xie Junjie was appointed as a supervisor of the Company with effect from September 2016 to October 2022. Mr. Song Tao was appointed as a supervisor of the Company with effect from April 2020 to February 2021. Mr. Liu Zhufu was appointed as a supervisor of the Company with effect from January 2021 to February 2021. Mr. Li Liuwei and Ms. Wan Ying were appointed as a supervisor of the Company with effect from January 2021. Ms. Zhao Kun was appointed as a supervisor of the Company with effect from October 2022 to May 2023. Ms. Ma Jingxian was appointed as a supervisor of the Company with effect from May 2023.

During the Relevant Periods and six months ended 30 June 2023, restricted share units were granted to certain directors through share incentive platforms, further details of which are included in the disclosures in note 32 to the financial statements. The fair value of such awarded shares, which has been recognised in profit or loss, was determined as at the date of grant and the amount included in the financial statements for the Relevant Periods is included in the above directors' remuneration disclosures.

There was no arrangement under which a director or the chief executive waived or agreed to waive any remuneration during the Relevant Periods and six months ended 30 June 2023.

NOTES TO THE FINANCIAL STATEMENTS (continued)**9. FIVE HIGHEST PAID EMPLOYEES**

The five highest paid employees during the Relevant Periods and six months ended 30 June 2023 included one, one, one and one directors, respectively, details of whose remuneration are set out in note 8 above. Details of the remuneration for the remaining four, four, four and four highest paid employees who are neither a director nor chief executive of the Company during the Relevant Periods and six months ended 30 June 2023 are as follows:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000
Salaries, bonuses, allowances and benefits in kind	2,622	2,303	2,610	1,312	1,290
Pension scheme contributions	68	71	157	73	51
Share-based payment expenses	5,444	6,496	5,481	2,677	3,137
	<u>8,134</u>	<u>8,870</u>	<u>8,248</u>	<u>4,062</u>	<u>4,478</u>

The number of non-director and non-chief executive highest paid employees whose remuneration fell within the following bands is as follows:

	Year ended 31 December			Six months ended 30 June	
	2021	2022	2023	2023 (Unaudited)	2024
	Number of employees			Number of employees (Unaudited)	
Below HK 1,000,000	-	-	-	2	-
HKD 1,000,001 to HKD 1,500,000	2	-	-	2	4
HKD 1,500,001 to HKD 2,000,000	1	2	2	-	-
HKD 2,500,001 to HKD 3,000,000	1	1	2	-	-
HKD 4,000,001 to HKD 4,500,000	-	1	-	-	-
	<u>4</u>	<u>4</u>	<u>4</u>	<u>4</u>	<u>4</u>

During the Relevant Periods and six months ended 30 June 2023, restricted share units were granted to seven non-director and non-chief executive highest paid employees in respect of their services to the Group, further details of which are included in the disclosures in note 32 to the financial statements. The fair value of such shares, which has been recognised in the statement of profit or loss over the vesting period, was determined as at the date of grant and the amount included in the financial statements for the Relevant Periods and the six months ended 30 June 2023 is included in the above non-director and non-chief executive highest paid employees' remuneration disclosures.

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which members of the Group are domiciled and operate.

Chinese Mainland

The provision for corporate income tax in Chinese Mainland is based on the statutory rate of 25% of the taxable profits determined in accordance with the PRC Corporate Income Tax Law which was approved and became effective on 1 January 2008. Shenzhen Qimo Technology Co., Ltd., a subsidiary of the Group in Chinese Mainland, is qualified as a high and new technology enterprise and was subject to income tax at a preferential tax rate of 15% for the years ended 31 December 2021 and 2022.

The Company was approved as a “High and New Technology Enterprise” and entitled to a preferential income tax rate of 15% during the Relevant Periods and six months ended 30 June 2023. This qualification is subject to review by the relevant tax authority in the PRC for every three years.

Overseas subsidiaries

No income tax on the overseas subsidiaries has been provided as there were no assessable profit arising in such overseas tax jurisdictions during the Relevant Periods.

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. INCOME TAX (continued)

The income tax expense of the Group for the Relevant Periods and six months ended 30 June 2023 is analysed as follows:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000
Current income tax	16,302	228	14,778	2	539
Deferred income tax	163	(363)	(1,297)	123	(240)
Total tax charge/(credit) for the year	<u>16,465</u>	<u>(135)</u>	<u>13,481</u>	<u>125</u>	<u>299</u>

A reconciliation of the expected income tax calculated at the preferential tax rate and loss before income tax, with the actual income tax at the effective tax rate is as follows:

	Year ended 31 December			Six months ended 30 June	
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2023 RMB'000 (Unaudited)	2024 RMB'000
Loss before tax	<u>(25,291)</u>	<u>(52,612)</u>	<u>(89,800)</u>	<u>(51,562)</u>	<u>(59,584)</u>
Tax charge at the preferential tax rate of 25%	(6,323)	(13,153)	(22,450)	(12,891)	(14,896)
Entities entitled to lower statutory income tax rate	2,455	8,104	7,976	5,005	5,558
Additional deductible allowance for qualified research and development expenses	(5,311)	(6,757)	(8,755)	(3,956)	(3,692)
Temporary differences and tax losses not recognised	25,606	9,595	31,956	10,975	11,197
Expenses not deductible for tax	<u>38</u>	<u>2,076</u>	<u>4,754</u>	<u>992</u>	<u>2,132</u>
Tax charge/(credit) at the Group's effective tax rate	<u>16,465</u>	<u>(135)</u>	<u>13,481</u>	<u>125</u>	<u>299</u>

Based on Public Notice 2022 No. 28 issued by the State Tax Bureau of the PRC on 22 September 2022, the enterprises originally eligible for an additional 75% deduction of eligible R&D expenses can further enjoy an increased super deduction ratio of 100% from 1 October 2022 to 31 December 2022 (i.e. the fourth quarter of 2022). Furthermore, based on Public Notice 2023 No. 7 issued by the State Tax Bureau of the PRC on 26 March 2023, the enterprises were eligible for a 100% deduction of eligible R&D expenses from 1 January 2023. The Company has claimed such additional super deduction during the Relevant Periods and six months ended 30 June 2023.

NOTES TO THE FINANCIAL STATEMENTS (continued)**11. DIVIDENDS**

No dividend was paid or declared by the Company during the Relevant Periods and the six months ended 30 June 2023.

12. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amounts is based on the loss attributable to ordinary equity holders of the parent and the weighted average number of ordinary shares in issue during the Relevant Periods and the six months ended 30 June 2023. The weighted average number of ordinary shares in issue for 2021 and 2022 before the conversion into a joint stock company was determined by assuming that the paid-in capital had been fully converted into share capital at the same conversion ratio of 1:35.81 as upon transformation into a joint stock company in December 2022.

No adjustment has been made to the basic loss per share amounts presented for the Relevant Periods and six months ended 30 June 2023 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issue.

The calculations of basic and diluted loss per share are based on:

	Year ended 31 December			Six months ended 30 June	
	2021	2022	2023	2023	2024
				(Unaudited)	
<u>Loss</u>					
Loss attributable to ordinary equity holders of the parent, used in the basic earnings per share calculation (RMB'000)	(41,558)	(52,477)	(103,281)	(51,687)	(59,883)
<u>Shares</u>					
Weighted average number of ordinary shares in issue during the year, used in the basic loss per share calculation ('000)	330,150	348,862	360,000	360,000	360,000

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

16. INVESTMENT IN AN ASSOCIATE

The Group's shareholding in an associate is held through the Company. Zhejiang Tiexi intelligent technology Co., LTD. ("Zhejiang Tiexi"), which is considered as an immaterial associate of the Group.

The Group and The Company

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Share of net assets	202	208	208	208
Goodwill on acquisition	930	930	930	930
	1,132	1,138	1,138	1,138
Provision for impairment	-	(1,138)	(1,138)	(1,138)
	1,132	-	-	-

Although the Company holds less than 20% of the equity voting rights in Zhejiang Tiexi, it has significant influence over Zhejiang Tiexi as it has the power to participate in the financial and operating policy decisions of Zhejiang Tiexi by appointing a director in the board.

Since Zhejiang Tiexi experienced a significant decline in its revenue and profitability, the Group carried out impairment assessment on the investment in Zhejiang Tiexi and a full provision was made in 2022.

The Group

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Net deferred tax liabilities recognised in the consolidated statement of financial position	272	10	559	845
Net deferred tax assets recognised in the consolidated statement of financial position	<u>5</u>	<u>106</u>	<u>1,902</u>	<u>2,427</u>

The Company

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Net deferred tax liabilities recognised in the consolidated statement of financial position	<u>265</u>	<u>10</u>	<u>559</u>	<u>845</u>

Deferred tax assets have not been recognised in respect of the following items:

The Group

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Tax losses	207,361	292,992	414,720	497,616
Deductible temporary differences	<u>180,581</u>	<u>187,251</u>	<u>242,021</u>	<u>225,761</u>
	<u>387,942</u>	<u>480,243</u>	<u>656,741</u>	<u>723,377</u>

The Company

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Tax losses	187,414	267,582	374,427	402,834
Deductible temporary differences	<u>26,423</u>	<u>46,353</u>	<u>53,741</u>	<u>44,376</u>
	<u>213,837</u>	<u>313,935</u>	<u>428,168</u>	<u>447,210</u>

The Group has accumulated tax losses in Chinese Mainland of RMB207,361,000 RMB290,734,000 RMB407,884,000 and RMB478,263,000 in aggregate as at 31 December 2021 and 2022 and 2023 and 30 June 2024, respectively, which will expire in one to ten years to offset against future taxable profits of the companies in which losses were incurred. The Group also has accumulated tax losses in the United States and Hong Kong of RMB2,258,000 RMB6,836,000 and RMB 19,353,000 in aggregate as at 31 December 2022 and 2023 and 30 June 2024 respectively, that can be carried forward indefinitely to offset against future taxable profits of the companies in which losses were incurred. Deferred tax assets have not been recognised in respect of the above items as it is not considered probable that taxable profits will be available against which the above items can be utilised.

* Bills receivable is subject to impairment under the general approach and the impairment is considered to be minimal.

NOTES TO THE FINANCIAL STATEMENTS (continued)

19. TRADE AND BILLS RECEIVABLES (continued)

The Group's trading terms with its certain customers are on credit, and the credit period is generally 30 to 90 days. Some customers were granted more than credit period of one year, depending on the specific payment terms in each contract. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by management. In view of the aforementioned and the fact that the Group's trade receivables relate to diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

NOTES TO THE FINANCIAL STATEMENTS (continued)

19. TRADE AND BILLS RECEIVABLES (continued)

An impairment analysis is performed at the end of each of Relevant Periods using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Trade receivables for which the counterparties failed to make the demanded repayments are defaulted receivables. The Group has provided full impairment for the defaulted receivables. The Company estimated that the expected loss rate for its trade receivables due from subsidiaries is minimal.

Set out below is the information about the credit risk exposure on the Group's and the Company's trade receivables using a provision matrix:

The Group

As at 31 December 2021

	<u>1,207</u>	<u>508</u>	<u>958</u>	<u>2,794</u>

Other receivables had no historical default. The financial assets included in the above balances relating to receivables were categorised in stage 1 at the end of each of the Relevant Periods, except for the Company's other receivables due from a subsidiary which were fully impaired with impairment provision of RMB13,048,000, RMB10,880,000 and RMB10,888,000 as at 31 December 2022 and 2023 and 30 June 2024, respectively, as the subsidiary has ceased to operate since 2022. In calculating the expected credit loss rate, the Group considers the historical loss rate and adjusts for forward-looking macroeconomic data. As at 31 December 2021, 2022 and 2023 and 30 June 2024, the Group estimated the expected credit losses for other receivables to be RMB715,000, RMB373,000, RMB431,000 and RMB392,000, respectively.

Other receivables are unsecured, non-interest-bearing and are collectable within one year.

The movements in the loss allowance for impairment of other receivables are as follows:

Forward currency contracts, at fair value	<u>-</u>	<u>-</u>	<u>80</u>	<u>-</u>

The above unlisted investments were structured deposits and certificate deposits issued by banks in Chinese Mainland. They are classified and measured at fair value through profit or loss as they are not held within the business model with the objective to collect contractual cashflows nor the business model with the objective of both collecting contractual cashflows and selling.

As at 31 December 2023 and 30 June 2024, certificate deposits of RMB50,000,000 and RMB40,000,000 were secured for the Group's bank loans respectively (note 26).

NOTES TO THE FINANCIAL STATEMENTS (continued)

22. CONTRACT ASSETS

The Group

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Contract assets arising from:				
Warranty retention receivables	252	98	376	534
Less: Impairment of contract assets	<u>24</u>	<u>16</u>	<u>51</u>	<u>118</u>
	<u>228</u>	<u>82</u>	<u>325</u>	<u>416</u>

The Company

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Contract assets arising from:				
Warranty retention receivables	231	98	376	534
Less: Impairment of contract assets	<u>22</u>	<u>16</u>	<u>51</u>	<u>118</u>
	<u>209</u>	<u>82</u>	<u>325</u>	<u>416</u>

Contract assets are initially recognised for the revenue earned from sales of products and the receipt of retention consideration is conditional on expiration of the warranty period. Upon expiration of the warranty period, the amounts recognised as contract assets are reclassified to trade receivables.

The expected timing of recovery or settlement for all the contract assets at the end of reporting period is within one year.

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

23. CASH AND BANK BALANCES AND RESTRICTED BANK BALANCES (continued)

The RMB is not freely convertible into other currencies, however, under Chinese Mainland's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances and restricted bank balances are deposited with creditworthy banks with no recent history of default.

* As at 31 December 2022, the restricted bank deposits of RMB4,776,000 were frozen due to the dispute between the Group and a third party. The dispute was resolved subsequently and the restricted amount was unfrozen in 2023.

As at 31 December 2022 and 2023, the restricted bank deposits included RMB3,592,000 and RMB1,389,000, respectively, used as performance deposits for certain sales contracts which will become unrestricted after the completion of the contracts.

30. SHARE CAPITAL/PAID-IN CAPITAL

Share capital

A summary of movements in the share capital is as follows:

	Number of shares in issue (in thousand)	Share capital RMB'000
As at 1 January 2022	-	-
Issue of ordinary shares upon conversion into a joint stock company of RMB1 each*	360,000	360,000
As at 31 December 2022 and 2023 and 30 June 2024	360,000	360,000

Paid-in capital

	RMB'000
As at 1 January 2021	7,850
Capital contribution by shareholders*	1,688
As at 31 December 2021	9,538
Capital contribution by shareholders**	516
Conversion into a joint stock company***	(10,054)
As at 31 December 2022	-

*During the year ended 31 December 2021, the Company received capital contributions of RMB309,137,000 from fifteen investors. The capital contribution increased the paid-in capital and capital reserve by RMB1,688,000 and RMB307,449,000, respectively.

**During the year ended 31 December 2022, the Company received capital contributions of RMB183,527,000 from four investors. The capital contribution increased the paid-in capital and capital reserve by RMB516,000 and RMB183,011,000, respectively.

***In December 2022, the Company converted into a joint stock company with limited liability under the Company Law of the PRC. The net assets of the Company as of the conversion base date, including the paid-in capital, capital reserves and accumulated losses, amounting to RMB530,410,000 were converted into 360,000,000 ordinary shares of RMB1.00 each. The excess of the net assets converted over the nominal value of the ordinary shares was credited to the Company's capital reserve.

NOTES TO THE FINANCIAL STATEMENTS (continued)

31. RESERVES

The Group

The amounts of the Group's reserves and the movements therein for the Relevant Periods are presented in the consolidated statements of changes in equity.

(i) Capital reserve

The capital reserve of the Group represents the difference between the value of the paid-up capital and the consideration received, as well as the reserves resulting from transactions with non-controlling interests.

(ii) Share-based payment reserve

The share-based payment reserve of the Group represents the share-based compensation reserve due to equity-settled share-based payment transactions, details of which were set out in note 32 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)**32. SHARE-BASED PAYMENTS****Share Award Scheme**

The Group approved and adopted the share award scheme (the “Share Award Scheme”) for certain employees of the Group (“Share Incentive Participants”) in order to recognise the contributions of the Share Incentive Participants to the growth and development of the Group, and incentivise them to further promote the development of the Group.

In order to implement the Share Award Scheme, Shenzhen Yuejiang Consultation Partnership (Limited Partnership) (“Yuejiang LP”), Shenzhen Qimo Investment Partnership (Limited Partnership) (“Qimo LP”), Shenzhen Chumo Consulting Partnership (Limited Partnership) (“Chumo LP”) and Shenzhen Lumo Consulting Partnership (Limited partnership) (“Lumo LP”) were established and designated as share incentive platforms to hold the shares specially awarded to the eligible participants as the ultimate beneficial owners. The Group has no control over the share incentive platforms.

On 31 December 2018, the Group granted 768,672 (equal to 27,525,106 shares after conversion into a joint stock company) restricted share units (“RSUs”) of the Company to 12 eligible employees at a subscribed price of RMB1.00. On 31 January 2022, the Group granted 144,937 (equal to 5,190,002 shares after conversion into a joint stock company) restricted share units of the Company to 49 eligible employees at a subscribed price of RMB52.42. On 1 June 2023, the Group granted 12,345,000 restricted share units of the Company to 83 eligible employees at a subscribed price of RMB1.39. On 31 December 2023, the Group granted 1,866,400 restricted share units of the Company to 16 eligible employees at a subscribed price of RMB1.39.

All of the RSUs granted to the Share Incentive Participants shall be subject to both a listing-based condition (the “IPO Condition”) as well as service conditions. The IPO Condition would be satisfied when the ordinary shares of the Company are successfully listed on a recognised stock exchange.

The fair value of the RSUs granted on 31 December 2018, 31 January 2022, 1 June 2023 and 31 December 2023 were estimated at RMB2.99, RMB5.93, RMB7.01 and RMB7.55 per share after conversion into a joint stock company, respectively, by an independent professionally qualified valuer.

The fair values of the RSUs granted were estimated as at the grant date by using discounted cash flow method and hybrid method, as well as equity allocation based on option pricing model, taking into account the terms and conditions upon which the RSUs were granted. The following table lists the significant inputs to the fair value model used:

	31 December 2018	31 January 2022	1 June 2023	31 December 2023
Risk-free interest rate (%)	2.96	2.30	2.29	2.17
Volatility (%)	41.17	39.64	40.30	31.32

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

32. SHARE-BASED PAYMENTS(continued)

Share Award Scheme

The movements of the outstanding RSUs granted under the Share Award Scheme during the Relevant Periods were as follows:

	Number of shares
At 1 January 2021	683,582
Forfeited during the year	(279,770)
	<hr/>

	<hr/>
At 30 June 2024	28,021,725
	<hr/> <hr/>

The aforesaid transactions have been accounted for as share-based payment transactions. During the years ended 31 December 2021, 2022, 2023 and the six months ended 30 June 2023 and 2024, the Group recognised share award credit of RMB1,697,000 and expense of RMB12,107,000, RMB20,712,000, RMB5,447,000 and RMB13,432,000 respectively.

NOTES TO THE FINANCIAL STATEMENTS (continued)

32. SHARE-BASED PAYMENTS(continued)

Share Option Scheme

The Group approved a share option scheme in 2018. Pursuant to the Share Option Scheme, the Group proposed to grant 1.58% of the share options in the original equity structure to the Company through Qimo Investment, one of the share incentive platforms. 40%, 30% and 30% of the share options will be vested when the vesting condition is met over the three years. The vesting of share options is also subject to the IPO Condition. The IPO Condition would be satisfied when the ordinary shares of the Company are successfully listed on a recognised stock exchange.

On 31 December 2018, the Group granted 114,378 (equal to 4,096,000 shares after conversion into a joint stock company) share options which will vest in instalments over the next three years. The exercise price is RMB 8.74 per share.

The fair value of share options granted was estimated at RMB 98.77 per share option at the grant date using the Black-Scholes model. The following table lists the key inputs to the model used:

	31 December 2018
Risk-free interest rate (%)	2.58-2.91
Volatility (%)	33.93-37.10

NOTES TO THE FINANCIAL STATEMENTS (continued)**32. SHARE-BASED PAYMENTS(continued)****Share Option Scheme(continued)**

The share options granted and outstanding during the Relevant Periods are as follows:

	Number of shares
At 1 January 2021	56,465
Forfeited during the year	(6,660)
	<hr/>
At 31 December 2021	49,805
	<hr/> <hr/>
At 1 January 2022	49,805
Forfeited during the year	(7,094)
	<hr/>
At 31 December 2022	42,711
After conversion into a joint stock company	1,529,415
	<hr/> <hr/>
At 1 January 2023	1,529,415
Forfeited during the year	-
	<hr/>
At 31 December 2023 and 30 June 2024	1,529,415
	<hr/> <hr/>

The aforesaid transactions have been accounted for as share-based payment transactions. During the years ended 31 December 2021, 2022, 2023 and the six months ended 30 June 2023 and 2024, the Group recognised share award expenses of RMB 412,000, RMB 472,000, RMB 752,000, RMB 398,000 and RMB 233,000 respectively.

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

33. DISPOSAL OF A SUBSIDIARY

In July 2021, the Group disposed of 90% equity interests in Wuhan Yuejiang Zhidao Technology Co., LTD. to independent third parties, at a cash consideration of RMB1,000,000. The transaction was completed on 21 July 2021.

	2021

Cash and bank balances disposed of	<u>(1,251)</u>
Net outflow of cash and cash equivalents in respect of the disposal of a subsidiary	<u>(251)</u>

NOTES TO THE FINANCIAL STATEMENTS (continued)

34. ASSETS ACQUISITION

In 2020, the Group signed a cooperation agreement with Qingdao government, pursuant to which the government will incorporate an entity named Qingdao Yuejiang Robotics Co., Ltd. ("Yuejiang Robotics"), used as a platform to acquire the land use right and build a factory in Qingdao according to the Group's plan. After completion of the construction the land and the building will be delivered to the Group for use and the Group is committed to acquiring the equity interests in Yuejiang Robotics which holds the assets.

In April 2022, the construction was completed and the assets were delivered to the Group. In December 2022, the Group and the Qingdao government signed an agreement to acquire 100% equity interests in Yuejiang Robotics with reference to the fair value of the assets. The transfer of the equity interests in Yuejiang Robotics was completed in June 2023.

The commercial substance of the transaction is to acquire the land use right and the building and the purchase obligation as stipulated in the agreement is non-cancellable. Therefore, when the government transfers the completed building and land use right to the Group, the Group obtains control of the assets. The subsequent agreement to acquire equity interests in Yuejiang Robotics is a payment arrangement between the parties for the purchase of the assets.

As at 31 December 2022, the Group recognized property, plant and equipment of RMB 60,332,000, right-of-use assets of RMB 9,529,000 and the other payables of RMB 70,781,000. In June 2023 when the transfer of the equity interests in Yuejiang Robotics was completed, the Group recognised the working capital of Yuejiang Robotics and settled the other payables with the amount of RMB71,540,000.

NOTES TO THE FINANCIAL STATEMENTS (continued)**35. NOTES TO THE CONSOLIDATED STATEMENTS OF CASH FLOWS****(a) Major non-cash transactions**

During the years ended 31 December 2021, 2022, 2023 and the six months ended 30 June 2023 and 2024, the Group had non-cash additions to right-of-use assets and lease liabilities of RMB6,574,000, RMB7,125,000, RMB6,013,000, RMB4,813,000 and RMB 5,062,000, respectively, in respect of lease arrangements for factory, office and laboratory premises.

During the year ended 31 December 2023, the Group had offset the payables for property, plant and equipment with the deferred income in the amount of RMB63,250,000, based on agreements with government authorities.

(b) Changes in liabilities arising from financing activities

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities.

	Interest bearing bank borrowings RMB'000	Lease liabilities RMB'000	Total RMB'000
At 1 January 2021	23,045	5,824	28,869
Changes from financing cash flow	(23,414)	(4,296)	(27,710)
Changes from non-financing cash flow	-	6,574	6,574
Accretion of interest	<u>369</u>	<u>289</u>	<u>658</u>
At 31 December 2021 and 1 January 2022	<u>-</u>	<u>8,391</u>	<u>8,391</u>

NOTES TO THE FINANCIAL STATEMENTS (continued)**40. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS**

All the carrying amounts of the Group's financial instruments approximate to their fair values due to the short-term maturities of these instruments.

The Group's finance department is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At the end of each of the Relevant Periods, the finance department analysed the movements in the values of financial instruments and determined the major inputs applied in the valuation. The valuation is reviewed and approved by the finance manager. The valuation process and results are discussed with the directors of the Company once a year for annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of the financial assets and financial liabilities at fair value through profit or loss have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

Fair value hierarchy**Financial assets:**

As at 31 December 2021

NOTES TO THE FINANCIAL STATEMENTS (continued)**41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Group's principal financial instruments comprise interest-bearing bank and other borrowings, financial assets at fair value through profit or loss and cash and short term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Foreign currency risk

Foreign currency risk is the risk of loss resulting from changes in foreign currency exchange rates. Fluctuations in exchange rates between RMB and other currencies in which the Group conducts business may affect the Group's financial condition and results of operations.

The following table demonstrates the sensitivity at the end of each of the Relevant Periods to a reasonably possible change in foreign currency exchange rates, with all other variables held constant, of the Group's loss before tax (due to changes in the fair value of monetary assets and liabilities) and the Group's equity.

	Increase/(decrease) in basis points %	Increase/(decrease) in profit before tax RMB'000	(Decrease)/ increase in equity RMB'000
Year ended 31 December 2021			
If RMB weakens against the US\$	5	1,435	1,435
If RMB strengthens against the US\$	5	(1,435)	(1,435)

If RMB weakens against the US\$	5	2,367	2,367
If RMB strengthens against the US\$	5	(2,367)	(2,367)
Year ended 31 December 2023			
If RMB weakens against the US\$	5	3,357	3,357
If RMB strengthens against the US\$	5	(3,357)	(3,357)
Six months ended 30 June 2024			
If RMB weakens against the US\$	5	1,865	1,865
If RMB strengthens against the US\$	5	(1,865)	(1,865)

NOTES TO THE FINANCIAL STATEMENTS (continued)

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Foreign currency risk (continued)

Credit risk

The Group trades only with recognised and creditworthy parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. Receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. The credit risk of the Group's other financial assets, which comprise cash and cash equivalents and financial assets included in prepayments, other receivables and other assets, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

For other receivables and other assets, management makes periodic collective assessment as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experience. The Directors believe that there is no material credit risk inherent in the Group's outstanding balance of other receivables.

SHENZHEN DOBOT CORP LTD

NOTES TO THE FINANCIAL STATEMENTS (continued)

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at the end of each of the Relevant Periods.

The amounts presented are gross carrying amounts for financial assets.

* The credit quality of the financial assets included in prepayments, other receivables and other assets is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition.

At the end of each of the Relevant Periods, the Group had no significant concentrations of credit risk which are disclosed in note 19 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations. The maturity profile of the Group's financial liabilities as at the end of each of the Relevant Periods, based on the contractual undiscounted payments, is as follows:

As at 31 December 2021

	Less than 12 months or on demand RMB'000	1 to 5 years RMB'000	Total RMB'000
Trade and bills payables	18,275	-	18,275

NOTES TO THE FINANCIAL STATEMENTS (continued)**41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)****Capital management**

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the Relevant Periods.

The asset-liability ratios as at the end of each of the Relevant Periods are as follows:

	As at 31 December			As at 30 June
	2021 RMB'000	2022 RMB'000	2023 RMB'000	2024 RMB'000
Total assets	<u>665,085</u>	<u>925,420</u>	<u>734,888</u>	<u>669,143</u>
Total liabilities	<u>349,434</u>	<u>470,386</u>	<u>361,585</u>	<u>342,211</u>
Asset-liability ratio	<u>53%</u>	<u>51%</u>	<u>49%</u>	<u>51%</u>

*The asset-liability ratio is calculated by dividing total liabilities by total assets.

42. EVENTS AFTER THE RELEVANT PERIOD
